

UNIMIX In-house Days, Germany

Modern Mixing Solutions in the Cosmetics & Pharma Industry

**October 29-30,
2025**

**Day 1: 8.30 am – 5.00 pm
Day 2: 8.30 am – 3.00 pm**

**Free of
charge**

Making semi-solid products in the cosmetic and pharmaceutical industry is a demanding task.

Especially in active powders dispersion and crystallization steps the right process and mixing system decide about the product quality. Then defining efficient cleaning parameters in a water-scarce environment is no less a challenge!

If you need to improve such steps, make your process more robust and efficient or share your experience with other users you will certainly find some valuable information from this in-house day's, held by EKATO process and mixing experts.

We kindly invite you to join our in-house days in Germany (Schopfheim) to meet experts, broaden your knowledge base and of course do some more networking in a pleasant environment!

Objectives

This in-house training will show how our UNIMIX technology can be used in the cosmetics and pharmaceutical industry. Additionally, we will demonstrate ideal solutions for Cleaning In Place CIP.

Target Group

Product developers, process engineers, project managers, production specialists, operations managers, plant operators and anyone interested in the development and cost-effective manufacture of semi-solid dosage forms in cosmetics and pharmaceuticals.
